### A Study On Revelation (Week #74)

Pastor Jason Goss

**Revelation 12:18** Then the dragon took his stand on the shore beside the sea.  
**13:11** Then I saw a beast rising up out of the sea. It had seven heads and ten horns, with ten crowns on its horns. And written on each head were names that blasphemed God. **2** This beast looked like a leopard, but it had the feet of a bear and the mouth of a lion! And the dragon gave the beast his own power and throne and great authority. *(NLT)*

#### Iron \_\_\_\_\_ With Clay

- Visions by Nebuchadnezzar and Daniel
  - Figure of a man (Daniel 2 and Daniel 7)
    - ▶ Gold - Babylon / Winged Lion
    - ▶ Silver - Persia / Bear on side
    - ▶ Brass - Greece / Leopard
    - ▶ Iron - Rome I / Terrible Beast
    - ▶ Iron+Clay - Rome II / 10 Heads
  - What is the clay?
    - ▶ It is a metaphor, but of what?
    - ▶ Who are they?

**Daniel 2:43** This mixture of iron and clay also shows that these kingdoms will try to strengthen themselves by forming alliances with each other through intermarriage. But they will not hold together, just as iron and clay do not mix. *(NLT)*

**Daniel 2:43** In that you saw the iron mixed with [wet] common clay, they will combine with one another [with] in their descendants [the seed of men]; but they will not adhere to one another, just as iron does not combine with pottery. *(NASB)*

**Daniel 2:43** As you saw iron mixed with ceramic clay, they will mingle with the seed of men; but they will not adhere to one another, just as iron does not mix with clay. *(NKJV)*

- "they" - switches to personal pronoun
  - ▶ What do "they" do? Mingle themselves with seed of men
  - ▶ There are two problems here: Grammatically & Biologically
  - ▶ They must be something other than the seed of men; "they" are not the seed of men.

- ▶ "They" are large enough to make up a significant segment of the population.
- ▶ That is an allusion to something we don't quite grasp or understand.
- ▶ We aren't given a complete understanding.
- ▶ Are they Nephilim? Could be.
- ▶ Are they Clones? Could be.
- ▶ Are they Artificial Intelligence? Could be.
- ▶ Are they Hybrids? Could be.
- ▶ Are they Aliens? Could be.
- "They" don't mix.

**Luke 17:26** "When the Son of Man returns, it will be like it was in Noah's day. **27** In those days, the people enjoyed banquets and parties and weddings right up to the time Noah entered his boat and the flood came and destroyed them all. (NLT)

**Luke 17:26** And just as it happened in the days of Noah, so will it also be in the days of the Son of Man: **27** people were eating, they were drinking, they were marrying, and they were being given in marriage, until the day that Noah entered the ark, and the flood came and destroyed them all. (NASB)

**Luke 17:26** And as it was in the days of Noah, so it will be also in the days of the Son of Man: **27** They ate, they drank, they married wives, they were given in marriage, until the day that Noah entered the ark, and the flood came and destroyed them all. (NJKV)

### Research

- One of the most difficult areas to research
  - No solid answers.
  - Very few large eyewitness accounts.
  - No government support.
  - Manipulated evidence
  - Hoax claims, False / made-up accounts
    - ▶ Pentagon has released footage of accounts
    - ▶ Average 300-500 claims a month in the United States since 1997 (highest month being over 1100+)
    - ▶ Out of 144 encounters with what the federal government refers to as "unidentified aerial phenomena," incidents more commonly called UFO sightings, U.S. intelligence officials say they can really only explain one.
- Knowledgeable people
  - Scientists, experts in fields of study, government officials
    - ▶ Advanced Aerospace Threat Identification Program (AATIP)
  - Tangible evidence

- ▶ Visible through eye, radar, infrared, and spectral scopes
- ▶ Leave radiation, burnt ground behind
- ▶ Violation of physical laws, gravity, known physics and propulsion
- ▶ Faster than the speed of sound without sonic boom
- Questions
  - What is it?
  - What are its intentions?
  - What are its capabilities?
- Answers
  - Secret US Technology
  - Adversary Spy Technology
  - Something else unknown

### Conclusions

- Real evidence survives screening of false data, hoaxes
  - Physical evidences vs. physical laws
- Interdimensional, not intergalactic
  - Interdimensional: between dimensions; specifically refers to the movement between dimensions. Technically, what is moving is energy. It is moving from one dimensional state to another.
  - Intergalactic: Being or occurring between galaxies; occurring between galaxies; between or among galaxies
    - ▶ Current guesses that there could be 11 dimensions of space; or possibly 12 dimensions (F-theory: F for "father"); or possibly 13 dimensions if there is a dimension with no fixed dimension (M-theory: M for "membrane" or the "mother of all string theories")
    - ▶ It is expected that in the coming years, the new LHC (Large Hadron Collider) at CERN could test some of these predictions for the first time, providing more clues to the multi-dimensionality of our universe.
    - ▶ In science fiction, extra dimensions are sometimes interpreted as alternate worlds, but these extra dimensions could simply be too small for us to feel and examine (on the order of  $10^{-32}$  cm).
    - ▶ Physicist Gregory Landsberg said if the tests are successful, "This would be the most exciting thing since humanity discovered the Earth is not flat. It would give us a whole new reality to look at, a whole new universe."
- UFO / UAP Agenda of \_\_\_\_\_
  - Jacques Fabrice Vallée
    - ▶ Born September 24, 1939 in Val-d'Oise, France
    - ▶ Venture capitalist, computer scientist, internet pioneer, author, ufologist and astronomer
    - ▶ Currently lives in San Francisco

- ▶ In the mid-1960s, like many other UFO researchers, Vallée initially attempted to validate the popular Extraterrestrial Hypothesis (or ETH).
  - ▶ In mainstream science, Vallée is notable for co-developing the first computerized mapping of Mars for NASA and for his work at SRI International in creating ARPANET, a precursor to the modern internet.
  - ▶ Vallée is an important figure in the study of UFO's, first noted for a defense of the scientific legitimacy of the extraterrestrial hypothesis and later for promoting the interdimensional hypothesis.
- J. Allen Hynek
- ▶ Born May 1, 1910 - Died April 27, 1986
  - ▶ American astronomer, Astrophysicist, professor, and ufologist
  - ▶ Developed the "Close Encounter" classification system. He was among the first people to conduct scientific analysis of reports and especially of trace evidence purportedly left by UFOs.
  - ▶ Hynek worked with Project Sign (1947-1949) after it became Project Grudge (1949-1952), though he was far less involved in Grudge than he had been in Sign. Project Grudge was replaced with Project Blue Book in early 1952 (til 1969), and Hynek remained as scientific consultant. It was during the late stages of Blue Book in the 1960s that Hynek began speaking openly about his disagreements and disappointments with the Air Force.
  - ▶ In his first book, Hynek published the "Close Encounter" scale that he had developed to better catalog UFO reports. Hynek was later a consultant to Columbia Pictures and Steven Spielberg for the popular 1977 UFO movie Close Encounters of the Third Kind, named after a level of Hynek's scale. He made a cameo appearance in the film. At the end of the film, after the aliens disembark from the "mother ship", he can be seen, bearded and with pipe in mouth, stepping forward to view the spectacle.

### **Extraterrestrial Hypothesis** \_\_\_\_\_

- In April 1953, Hynek wrote a report for the Journal of the Optical Society of America titled "Unusual Aerial Phenomena," which contained one of his best-known statements:
  - Ridicule is not part of the scientific method, and people should not be taught that it is. The steady flow of reports, often made in concert by reliable observers, raises questions of scientific obligation and responsibility. Is there ... any residue that is worthy of scientific attention? Or, if there isn't, does not an obligation exist to say so to the public—not in words of open ridicule but seriously, to keep faith with the trust the public places in science and scientists?

- In a 1985 interview, when asked what caused his change of opinion, Hynek responded, "Two things, really. One was the completely negative and unyielding attitude of the Air Force. They wouldn't give UFOs the chance of existing, even if they were flying up and down the street in broad daylight. Everything had to have an explanation. I began to resent that, even though I basically felt the same way, because I still thought they weren't going about it in the right way. You can't assume that everything is black no matter what. Secondly, the caliber of the witnesses began to trouble me. Quite a few instances were reported by military pilots, for example, and I knew them to be fairly well-trained, so this is when I first began to think that, well, maybe there was something to all this."
- Vallée's opposition to the ETH theory is summarized in his paper, "Five Arguments Against the Extraterrestrial Origin of Unidentified Flying Objects", *Journal of Scientific Exploration*, 1990
  - Scientific opinion has generally followed public opinion in the belief that unidentified flying objects either do not exist (the "natural phenomena hypothesis") or, if they do, must represent evidence of a visitation by some advanced race of space travellers (the extraterrestrial hypothesis or "ETH").
  - It is the view of the author that research on UFOs need not be restricted to these two alternatives. On the contrary, the accumulated data base exhibits several patterns tending to indicate that UFOs are real, represent a previously unrecognized phenomenon, and that the facts do not support the common concept of "space visitors". Five specific arguments articulated here contradict the ETH:
    - (1) Unexplained close encounters are far more numerous than required for any physical survey of the earth;
    - (2) The humanoid body structure of the alleged "aliens" is not likely to have originated on another planet and is not biologically adapted to space travel;
    - (3) The reported behavior in thousands of abduction reports contradicts the hypothesis of genetic or scientific experimentation on humans by an advanced race;
    - (4) The extension of the phenomenon throughout recorded human history demonstrates that UFOs are not a contemporary phenomenon; and
    - (5) The apparent ability of UFOs to manipulate space and time suggests radically different and richer alternatives.
- Vallée has also speculated that UFO activity may have caused other religious apparitions, including Our Lady of Lourdes and the revelations of Joseph Smith. Vallée believes that religious experiences such as these should be studied outside of their religious contexts.

- \_\_\_\_\_ Perspectives
  - Not intergalactic, but trans-dimensional
  - Deceptive, not beneficial
    - ▶ They don't have any theological disposition but both came to this conclusion
  - Jacques Vallée and J. Allen Hynek both concluded that they appear to be "demonic." (their words)
  - Tom Horn & Cris Putnam suspect that they are a prelude for a forthcoming cosmic delusion by the "Prince of the Power of the Air." 4 year investigation, 4 books relating to their findings.

### \_\_\_\_\_ Phenomenon

- "Days of Noah"?
- Interdimensional contradictions
- The mystery of Roswell
  - "Smoking gun"? Gen. Roger Ramey's press conference
    - ▶ If nothing is there...why is it still classified?
    - ▶ Photo taken of memo in hand has been analyzed by current technology and it points toward a coverup.
- MJ-12 (Majestic 12) & the role of disinformation
  - The organization is claimed to be the code name of an alleged secret committee of scientists, military leaders, and government officials, formed in 1947 by an executive order by U.S. President Harry S. Truman to facilitate recovery and investigation of alien spacecraft.
    - ▶ Controversy on their existence, and documents
- Abductions?
  - Plurality of people with no prior psychiatric history, no desire for publishing findings, clearly subject to trauma, stories are too bizarre to accept and yet too consistent to ignore.
    - ▶ Abducted, subjected to medical procedures of data gathering, and then discarded.
  - Travis Walton - *The Fire In The Sky* (movie)
  - Betty Andreason
  - Dr. John Mack (Head of Harvard Psychiatric Activity) & MIT Conference

- ▶ Challenged those in attendance to figure out what and why things are happening with abductions.
- ▶ Dealt with more than 170 cases personally.
- ▶ If what these people are saying isn't happening to them - what is?
